NOT THE LIFE OF YOUR MEANS

Financial freedom starts with
financial education

money savvy

CORPORATE PROFILE

Navigating the financial waters has left many either washed up on the shore or at the bottom of the ocean. With so many misconceptions, misunderstandings, and misleading information, it's no wonder that 70% of income earning adults in South Africa are over indebted.

We are more than a product, and more than a training platform. We're a catalyst and driver to shift mindsets to ensure Africans not only work their way out of poverty, but that they have the tools to stay out.

Whether you're just starting out on your journey to financial freedom, on your way and have lost your way, or are just looking to improve on where you're at right now, Money Savvy has the tools to help you not only build your wealth, but to keep it too. We don't promise to make you rich, but we do promise to keep you rich.

Welcome to the Money Savvy revolution!

ABOUT US

Our approach to financial literacy is unique in the way we use relevant examples and activities to make the learning real. Most importantly, however, we teach people how to make money! Working with kids from a young age, we get in early to make financial discipline part of their everyday lives. We also work with people who are well entrenched in their financial situation: either to help them find their way or keep them on their way.

Kathryn Main
Boss Lady

Kathryn Main believes in the promise of the future but knows how difficult it can be to secure a future worth fighting for. While she maintains an ever-optimistic outlook on the future, she is a realist through-and-through when it comes to taking the right steps today to make tomorrow worthwhile.

Nthabiseng Mosena
North West Master Licensee

Nthabiseng, a passionate relationship builder and a connector of people and ideas, is at the forefront of shaping young entrepreneurs' success. With her innovative styles of connecting people, she strives to make a positive impact on the world, bringing together like-minded individuals that share ideas, support and grow one another.

Zandile Mtetwa
Gauteng - West Rand Licensee

Zandile Mtetwa is a naturally curious entrepreneur coming from a diverse background in retail, telecommunications, engineering & the manufacturing sector. She saw first-hand how the lack of financial literacy impacted the livelihood of each business' greatest asset -its people. With the industrial sector being one of the biggest employers of general labourers it was here that she saw the need for financial literacy for all. General workers are mostly negatively affected as they depend solely on their income.

ABOUT US

Thandeka Njomo
Gauteng - West Rand Licensee

Ndebele-born, Thandeka Njomo hails from Middelburg, Mpumalanga. Having grown up in an entrepreneurial household, one would never have found her sitting at home, idly twiddling her thumbs during school holidays. A fiercely independent, multi-talented young woman, Thandeka does not shy away from the unknown. She is always eager to bolster her skill set by learning something new.

Candice Preston
Gauteng - East Rand Licensee

Candice Preston believes in the power of education (combined with action) to transform our lives and learning about money is no different. She understands the emotional toll that finances can play in peoples' lives and knows that with help people can turn their stresses into successes. As a certified financial education instructor (CFEI), she empowers people in their financial lives to know how to make, manage and grow their money.

OUR CLIENTS

Samantha Shukla

Thank you for providing me with the opportunity to attend the financial literacy course. The course is a vital life skill, and I enjoyed the simple, informative approach of what can be a complex topic. I admire your passion and approach in teaching this topic and your willingness to always share, support and empower others is always appreciated. Even as an individual with a financial background I learnt new information.

Suhina Sirkisson

The personal financial literacy course for adults was a great investment into understanding and planning my personal finances and financial future. While I had a basic understanding of finances and how to save, this course explained everything in step by-step detail, while making me aware of many things I had not considered such as my mindset to my finances as well as how to work towards my financial goals.

My goal for this course was to learn how to budget efficiently as well as learn how to save and invest in order to reach financial independence. This course far exceeded my expectations in achieving these goals; not only did I gain an understanding of these topics, I also learnt amongst many other things, about concepts such as how to set realistic and clear goals, how to have multiple income streams while minimising my expenses, how to prepare a business budget, and how to invest.

Candice Preston, the course coordinator, was friendly, informative, and detailed in her explanations. She went out of her way to make sure that we understood the course content as well as to help us meet any goals or alleviate any concerns we may have had. I would definitely recommend her as well as the course to anyone who is trying to get a better understanding and a better handle on their personal finances. This is definitely an investment in yourself that I would make again in a heartbeat.

Tapiwa Xaba - Age 15

It's because of Money Savvy Kids that I am able to make plans to be more financially stable in the future. The lessons are fun and interactive while teaching us important things about how to manage our money. I will use the skills that I learnt here forever and I am glad to have had the opportunity to participate in this life-changing course. In conclusion, taking the Money Savvy Kids course was a great decision and I recommend it to anyone who is considering participating.

Kulunga Xaba - Age 13

The Money Savvy Kids course is a very useful one for anyone who wants to learn more about money matters. This course taught me how to spend money wisely, draw up a budget, how to invest, how to save properly and how to create multiple income streams. The lessons are fun and interactive and we have opportunities to dive into complex topics. I really enjoyed this course and I was taught skills that I can use for the rest of my life.
