

# FINANCIAL LITERACY SHOULD BE A HABIT, NOT A CHORE

Give your kids something many parents never knew about: the tools and mindset to make money, and the knowledge to keep it.

Through interactive activities, storytelling, and fun characters, we teach your kids how to make money, manage money, grow, and protect their money from the day they start earning it. These all-form part of the fundamentals of finances that our generation never knew about before it was too late.

Over the course of 6 weeks we offer after school programmes, in-school programmes, workshops, school holiday programmes, online courses and webinars, custom content as well as the "Raising Money Savvy Kids E-Book."

From as young as 6, we aim to educate every child and give them the opportunity to set the foundations to live a life of financial freedom one day.

**WE'RE HERE TO HELP YOU BUILD THE LIFE OF YOUR DREAMS, NOT LIVE THE LIFE OF YOUR MEANS!**

Our approach to financial literacy is unique in the way we use relevant examples and activities to make the learning real. Most importantly, however, we teach people how to actually make money!

Working with kids from a young age, we get in early to make financial discipline part of their everyday lives. We also work with people who are well entrenched in their financial situation: either to help them find their way, or keep them on their way.
